Camp #1

May 29th - June 9th

Secrets of the Sea Camp

Our campers will dive into the amazing world of marine life in this camp inspired by the curiosity and perseverance of Jeanne Villepreux Power, the scientist who pioneered the use of aquariums to study the ocean.

They will build a fish tank and learn about biology, chemistry, and environmental science. Capers also will create ocean-themed art using an array of art techniques like mixed-media art that will be fun and engaging as they learn about ocean habitats.
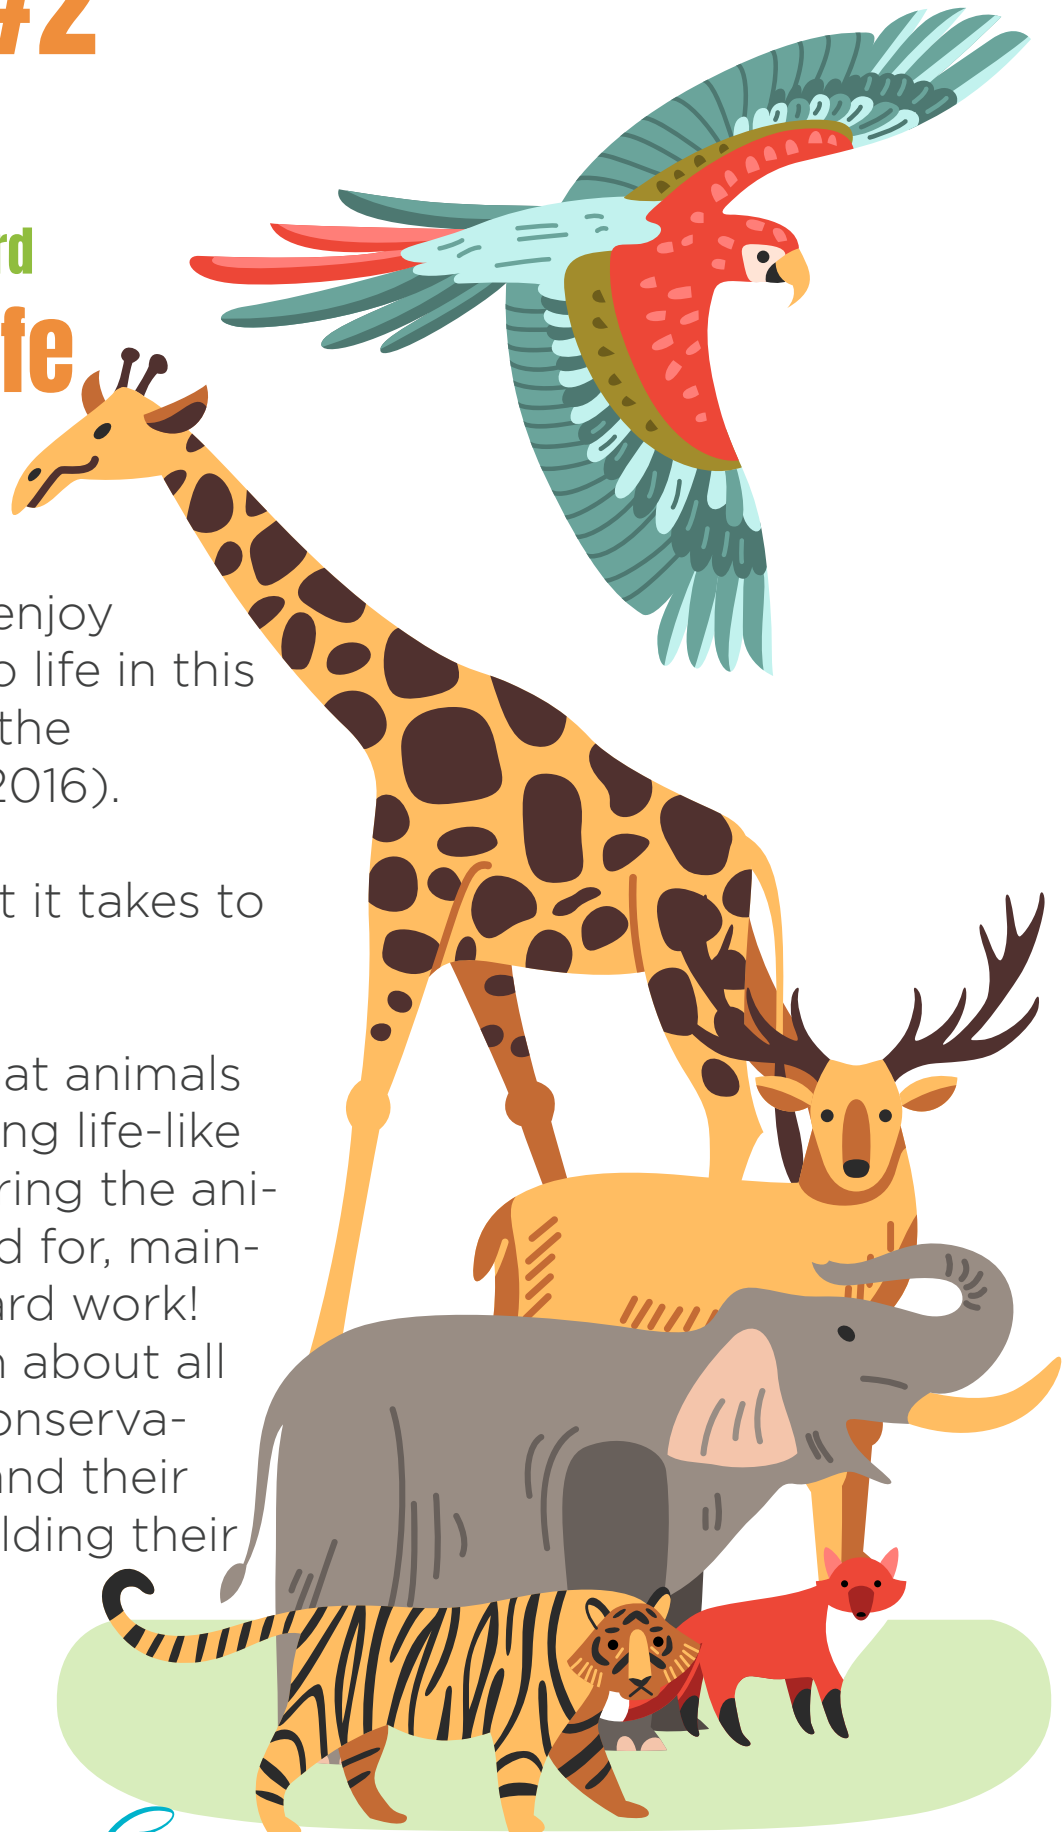

Camp #2

June 12th - June 23rd
Zootopia Life Camp!

Our campers will enjoy learning about zoo life in this camp inspired by the movie Zootopia (2016).

Do you know what it takes to build a zoo?

From deciding what animals to house, to creating life-like habitats and ensuring the animals are well cared for, maintaining a Zoo is hard work! Campers will learn about all the elements of conservation-driven Zoos and their missions while building their own exhibits!

Camp #3

June 26th - July 7th
Cooking With a Twist of Ratatouille Camp

Our campers will be young chefs who will create new recipes each day and taste their delicious creations at the end of class all inspired by the movie Ratatouille. Campers will get to peel, chop, whisk, and mix using child-safe cooking equipment.
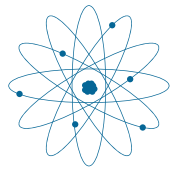

We will also make food art by presenting food in the most creative ways.
